was started from the academic year 2012-13. 2. Goal: The development of a nation depends on the younger generation who are physically and intellectually very strong. Such youth are prepared in the schools and colleges. But

sometimes, some students are intellectually very strong but are unable to come forward in society due to their economic backwardness. Most of the students who

get admission in our college are from rural background and economically backward. But they are very talented, studious and sincere. But due to their economic backwardness they are unable to continue their studies. Hence, in order to encourage and help such students to continue their education our college decided to provide them financial assistance through Cash Prize. The intention behind this is to motivate the students to study well and score more marks and to encourage them to participate in sports and cultural activities. 3. The Context: Our institution functioning in the semi urban and rural concentrated place and students of this region are socially and economically the most backward. The students who were getting admission in the college were from the rural backward classes and tribes. There was a high dropout rate and most of the students use to discontinue their education and were unable to pursue the higher education due to their poverty. In the staff meeting with the Principal the problem of dropout was discussed. The staff members told that the economic backwardness was the main reason for the students to discontinue their education. Hence, the Principal suggested that such students could be supported by providing financial help. So the teaching staff members decided to award Cash Prizes to the students who are meritorious but poor. Later the non teaching and library staff members also joined their hands. Afterwards the alumni and some members of the managing committee also joined the program. 4. The Practice: One of the staff members Prof. K M Maradibanakar who has been nominated as the coordinator is given the responsibility of collecting the cash from all the donors every year and to maintain the accounts and records. Every year on the annual day the Cash Prizes will be awarded to the students. 5. Evidence of success: After the introduction of Cash Prize the dropout rate is reduced in recent years. Many poor but meritorious students who have received Cash Prizes have pursued higher education and are settled with good jobs. It is come to our notice that the students have been studious and scoring highest marks. Even some students are scoring cent percent marks in certain subjects. There is a healthy competition among the students to bag the Cash Prizes by scoring maximum marks in their subjects. 6. Problems Encountered and Resource Required So far no problems are faced in carrying out this practice and in collecting the amount from the donors to award Cash Prizes to the students. The donors voluntarily come forward to contribute their share of amount. Even some staff members have motivated the public and alumni to constitute Cash Prizes. Some people who are inspired by the system have deposited certain amount as fixed deposit in the bank and the interest is used to award the Cash Prize. In the beginning the amount of the Cash Prize given by each staff member was nominal. Further, it was increased by them on their own. In the coming days it is thought to increase the number of donors and the amount of Cash Prize and to award the students with Cash Prizes who excel themselves in cultural activities also. 2. Green Planet and Energy Save practice Objectives of the Practice To initiate and provide awareness and practice Green Planet and Energy Save . The Context While discussing about global issues staff and also student came to know that serious issues of global warming, pollution and non-renewable energy sources.
